If you are a student from a non-EEA (European Economic Area) country, you need to obtain a residence permit for the purpose of study.

If you come from a country that falls under visa obligation, you need to apply for the Residence Permit for the Purpose of Study and with this, also a residence permit visa (D-visa) in a permanent residence application before you come to Hungary at the Hungarian Embassy, Consulate or at other locations authorized to receive residence permit applications which operates in the country of your permanent residence or nationality.

With the residence permit visa (D-visa) you can enter Hungary **only once** and you are allowed to stay with this document in Hungary only for **30 days**. These 30 days should give you enough time to receive your residence permit.

If you come from a visa waiver country (check here: <https://konzinfo.mfa.gov.hu/en/visa-free-travel-hungary>), you do not need to apply for a residence permit before arriving in Hungary. You can travel with your biometric passport that allows you to stay in Hungary for 90 days. You can apply for the residence permit after you arrive in Hungary (see more information below).
